Science

Living Things and their Habitats

This unit looks at the process of reproduction and the life cycle of plants, mammals, amphibians, insects and birds. The children will explore reproduction in different plants, including different methods of pollination and asexual reproduction. They will learn about different mammals and their differing life cycles. The children will have the chance to explore the work Jane Goodall has done with the chimpanzees.

Animals including Humans

This unit focuses on the changes that human beings experience as they develop to old age. It tackles some sensitive subjects including puberty and death.
